OVERVIEW

At LAF Export Group, we pride ourselves on our ability to provide high-quality commodities to our customers in a timely manner. Our Main Commodities are carefully selected to ensure that they meet the highest standards of quality and are available for delivery within a short period of time, typically between ASAP to 6 months. These commodities are sourced from local farmers and suppliers who share our commitment to quality and sustainability.

Our Main Commodities include Green Cardamom, Vanilla Beans, Clove, Copra, Onion Shallots. These commodities are in high demand and are carefully managed to ensure that they are always available to meet our customers' needs.

Please note that the availability and pricing of Main Commodities may vary depending on market conditions and supplier availability.

Green Cardamom

Our green cardamom pods are carefully harvested from lush plantations, delivering a vibrant aroma and rich, spicy-sweet flavor. Sourced directly from local farmers, we ensure top-notch quality and support sustainable practices.

Price Range/Kg : \$18,9 - \$21

Extra Bold (Premium)

- Pod Size: 8mm+
- Essential Oil Content: 6-8%
- Color: Vibrant green, uniform, free from blemishes
- Uses: High-end culinary applications & luxury teas

Superior (Grade B)

- Pod Size: 6mm-7mm
- Essential Oil Content: 4-5%.
- Color: Green but may have slight discoloration.
- Uses: Widely used for industrial purposes, bulk seasoning, and affordable blends.

Small (Lower)

- Pod Size: <6mm
- Essential Oil Content: <4%
- Color: Faded green or yellowish, may have more visual imperfections.
- Use: Low-cost blends, extraction of cardamom oil, or for local consumption.

Additional Information

*Naturally Hydrating & Nutritious, Handpicked for Freshness,
Sourced from Prime Regions, Supporting Local Farmers.*

Vanilla Beans (*Planifolia*)

Our vanilla beans are sourced directly from dedicated farmers, ensuring freshness, rich aroma, and a high vanillin content that enhances every culinary creation.

Price Range/Kg : \$94,5 - \$189

Grade A (Gourmet)

- Length: 15–20 cm
- Moisture Content: 25–30%
- Quality: Long, plump, and supple beans with a rich, sweet, and intense fragrance. Free of cracks, blemishes, or imperfections. They are dark brown to black in color with a shiny appearance.

Grade B (Commercial Vanilla)

- Length: 12–15 cm
- Moisture Content: 15–20%
- Quality: Beans of medium size. Slight imperfections or minor cracks may be present. Dark brown with some signs of dryness or wrinkling, but still retain a good level of flavor and aroma.

Grade C (Low-Quality)

- Length: <12 cm
- Moisture Content: <15%
- Quality: Smaller and thinner beans, often with a dry or brittle texture. Weaker aroma and beans may show significant cracks. Typically used for extraction or as a lower-grade ingredient.

Additional Information

High Vanillin Content, Direct from Farmers, Each vanilla bean is handpicked and cured for optimal flavor and aroma, Naturally Cultivated.

Clove

Our cloves are sourced from the finest plantations, providing a robust aroma and flavor that enhances any culinary experience. Harvested with care, our cloves support local farmers and sustainable agricultural practices.

Price Range/Kg : \$6,93- \$8,19

Grade A (Premium)

- Size: 8–12 mm
- Oil Content: 15–20%
- Quality: Large, whole, and intact cloves with a rich, strong aroma and vibrant dark brown to reddish-brown color. free of stems, broken parts, or any signs of mold, have a high oil content.

Grade B (Standard)

- Size: 6–8 mm
- Oil Content: 12–15%
- Quality: Medium-sized cloves with a slightly faded color. Slightly damaged but still retain a good level of aroma.

Grade C (Lower)

- Size: <6 mm
- Oil Content: <12%
- Quality: Small, broken, or damaged cloves with a weaker aroma. These cloves are typically used for industrial applications, such as in spice blends or extraction.

Additional Information

*Premium Quality, Directly Sourced from Indonesian Farms,
Supporting Local Farmers, Rich Aroma and Distinctive Flavor.*

Copra

Our copra is carefully processed to preserve its natural oil content and flavor, making it ideal for various industrial uses, including oil extraction and animal feed. Sourced directly from coconut plantations, we ensure consistent quality and support sustainable farming practices.

Price Range/Kg : \$1,39 - \$1,70

Grade A (Premium)

- Moisture Content: <6%
- Size: Consistent, large pieces (typically >100g per piece)
- Quality: White or off-white color, free from mold, fermentation, or discoloration.

Grade B (Standard)

- Moisture Content: 6–8%
- Size: Medium to small pieces
- Quality: Slightly darker color, but still free of mold or excessive discoloration.

Grade C (Lower)

- Moisture Content: >8%
- Size: Small, fragmented pieces
- Quality: Darker color, with visible signs of mold, fermentation, or rancidity.

Additional Information

Our copra contains high levels of coconut oil, Natural Drying Process, Sourced from Prime Coconut Regions, Support for Local Farmers.

Onion (Shallots)

Our shallots are sourced directly from reputable farms, ensuring a high-quality product that is fresh, flavorful, and aromatic. With a rich taste and distinctive aroma, our shallots are ideal for both culinary and industrial uses, meeting the needs of chefs, food processors, and more.

Price Range/Kg : \$1,58 - \$2,21

Grade A (Premium)

- Size: 25–40 grams per bulb
- Quality: Large, firm bulbs with smooth, papery skin, free from blemishes, sprouting, or discoloration. The shallots have a bright, uniform color (purple or golden), and are fully mature with a strong, fresh aroma.

Grade B (Standard)

- Size: 15–25 grams per bulb
- Quality: Medium-sized bulbs with slight blemishes or minor skin imperfections but still firm and intact. The color is generally uniform, though some bulbs may show slight fading.

Grade C (Lower)

- Size: <15 grams per bulb
- Quality: Small, soft bulbs with visible blemishes, sprouting, or discoloration. The skin may be damaged or cracked, and the aroma may be less pronounced or slightly off.

Additional Information

Naturally Flavorful, Carefully Sourced & Selected, Versatile Formats, Support for Local Farmers.

OVERVIEW

In addition to our Main Commodities, we also offer a range of Others Commodities that are available for delivery within a longer period of time, typically between 6 months to 1 year. These commodities are also sourced from local farmers and suppliers who share our commitment to quality and sustainability.

Our Others Commodities include :
Coconut, Coconut Shell, Pepper, Seaweed.

While these commodities may take longer to deliver, we are committed to ensuring that they meet the same high standards of quality as our Main Commodities. We work closely with our suppliers to ensure that these commodities are carefully managed and delivered to our customers in a timely manner.

Please note that the availability and pricing of Others Commodities may vary depending on market conditions and supplier availability.

Green Coconut

Our green coconuts are handpicked from lush plantations, delivering a natural source of hydration with a sweet, refreshing taste. We ensure the highest quality by sourcing only the finest coconuts, supporting sustainable agriculture and local farming communities.

Price Range/piece : \$0,32 - \$1

Grade A (Premium)

- Size: 1.5-2 kg per coconut
- Appearance: Smooth, vibrant green skin
- Quality: Fresh, bright green exterior with no signs of age.

Grade B (Standard)

- Size: 1-1.5 kg per coconut
- Appearance: Skin may have minor blemishes, slight imperfections, or marks but still has a greenish hue.
- Quality: The water is still fresh but may have slight turbidity or less volume.

Grade C (Lower)

- Size: <1 kg grams per coconut
- Appearance: The skin is blemished, damaged, or has discoloration.
- Quality: The water may have a slightly off-taste or be reduced in quantity, with some coconuts possibly having dried-up water.

Additional Information

*Naturally Hydrating & Nutritious, Handpicked for Freshness,
Sourced from Prime Regions, Supporting Local Farmers.*

Coconut Shell

Our coconut shells are sustainably sourced and carefully processed to provide a durable, eco-friendly material suitable for a variety of uses. Each shell is naturally cleaned and sun-dried, ready to be repurposed in various industries, including crafts, energy, and gardening.

Price Range/Kg : \$0,1 - \$0,15

Grade A (Premium)

- **Size:** Full-sized, intact shells with an average diameter of 10–15 cm
- **Shell Condition:** Strong, thick, and completely intact with no cracks, holes, or visible damage. The outer surface is clean and smooth, with minimal discoloration.

Grade B (Standard)

- **Size:** Medium-sized, shells with a diameter of 8–10 cm
- **Shell Condition:** Minor surface blemishes or small cracks, but the shell remains structurally sound. There may be slight discoloration or roughness on the outer surface.

Grade C (Lower)

- **Size:** Small or fragmented pieces, often less than 8 cm in diameter
- **Shell Condition:** Cracked, broken, or compromised shells with visible damage or holes. The outer surface may be heavily discolored or damaged, and the interior may show signs of mold or degradation.

Additional Information

*Naturally Hydrating & Nutritious, Handpicked for Freshness,
Sourced from Prime Regions, Supporting Local Farmers.*

Pepper (Black&White)

Our pepper is carefully processed to deliver a smooth, earthy flavor that complements a wide range of culinary applications. Sourced directly from local farmers, our peppercorns are of the finest quality, ensuring consistent flavor and supporting sustainable practices.

Price Range/Kg : \$6,93 - \$8,51

Grade A (Premium)

- Size: 5.5 mm+ (Whole peppercorns)
- Moisture Content: <13%
- Quality: Uniformly sized, round, and firm peppercorns, have a strong, fresh aroma and a pungent, aromatic flavor.

Grade B (Standard)

- Size: 5–5.5 mm (Whole peppercorns)
- Moisture Content: 13–14%
- Quality: Peppercorns of medium size with a slightly less intense aroma and flavor compared to Grade A. Slight cracks, but the overall quality remains suitable for most culinary applications.

Grade C (Lower)

- Size: <5 mm (Whole or broken peppercorns)
- Moisture Content: >14%
- Quality: Smaller, broken, or damaged peppercorns with a duller color and less aromatic fragrance.

Additional Information

Mild yet Pungent Flavor, Sourced from Prime Regions, Support for Local Farmers, Consistent Quality.

Tropical Seaweed

Tropical seaweed refers to varieties of seaweed that are found in tropical marine environments, typically in warm ocean waters, often near coastlines and coral reefs. These seaweeds are widely harvested for various uses, ranging from food products to industrial and pharmaceutical applications.

Price Range/Kg : \$1,1 - \$2,21

Grade A (Premium)

- Larger, thicker seaweed with uniform color and texture.
- Free from contaminants, discoloration, and physical damage.
- Clean and well-preserved, without excessive drying or dehydration.
- High oil content, high nutritional value, and strong flavor or aroma for specific applications like agar and carrageenan.

Grade B (Standard)

- Medium-sized seaweed with slight imperfections or irregularities.
- May show small amounts of discoloration or minor damage, but still generally clean.
- Suitable for less demanding markets but still offers acceptable quality for processing into products

Grade C (Lower)

- Smaller, broken, or damaged pieces.
- Has visible blemishes, cracks, or fading, with reduced consistency in texture.
- May contain unwanted materials such as sand or organic debris.
- Primarily used in industrial-scale production where the purity of the seaweed is less critical.

Additional Information

Nutrient-Rich Superfood, Sustainably Harvested, Versatile Applications, Supporting Local Communities

PACKAGING INFORMATION

At LAF Export Group, we are committed to providing packaging solutions that ensure the safe transport and optimal quality of our products. We offer flexible packaging options based on the specific needs of our customers, with the following standard categories:

Standard Packaging

We use high-quality such as *woven polypropylene (PP) sacks, jute bags, plastic bags, and cardboard boxes*. Products are typically packed in 10 kg, 25 kg, or 50 kg sacks for bulk exports. For retail markets, smaller packaging such as 500g, 1kg, or 5kg bags is available, depending on the product type.

Special Packaging

For premium markets, we offer special packaging solutions such as vacuum-sealed pouches & high-quality plastic containers. Special packaging materials are used to preserve product quality, such as moisture-proof seals for sensitive goods like vanilla and spices, or custom wraps to prevent damage during transport.

Customized Packaging Based on Buyer Requests

We understand that each customer may have unique packaging requirements. Therefore, we offer customized solutions tailored to your specific needs: Size and Quantity, Packaging Materials, Labeling, Protection, Compliance, Sustainability, Flexibility.
